NEKTON-DOG-H

Vitamin supplement for healthy coat and skin

NEKTON-Dog-H is vitamin compound which contains all necessary vitamins for dogs and an additional significantly increased amount for biotin - around two million $\mu\text{g}/\text{kg}$. NEKTON-Dog-H ensures a beautiful shiny coats and excellent fur development. NEKTON-Dog-H is highly-effective against rough, brittle coats, unnaturally light spots or skin changes. Biotin is involved in a variety of important metabolic reactions and supports the dog's growth, feed rate and procreation. One of the crucial functions of biotin is its strong influence on the dog's skin and fur. No other vitamin compound should be administered whilst using NEKTON-Dog-H.
