

NEKTON-KEEP-COOL

Vitamin supplement to promote inner balance for cats and dogs

This innovative new development ensures peace and relaxation for dogs and cats by means of a successful combination of natural components, such as chamomile, ginger and hops, as well as B vitamins and the amino acid L-tryptophan. The high-quality ingredients support production of serotonin in the brain and serves as a mood enhancer. NEKTON-Keep-Cool supports dogs and cats that are nervous and restless, as well as keeping them calm in fearful or stressful situations. The objective is to enable to animal to experience positive learning experiences in stressful situations. The full effects of NEKTON-Keep-Cool develop after solid administration after around 4 weeks and is, if necessary, suitable for long-term administration to consolidate the animal's positive experiences. It does not change the animal's personality!
