NEKTON-POLLEN-POWER

Bee pollen is one of nature's most complete foods. A complete protein, rich in vitamins, minerals, enzymes, amino acids and anti-oxidants. It builds immune system and enhances vitality.

Pollen is packed with bioactive substances, nutrients and active components directly from nature that help the organism in various ways: It has a beneficial effect on the immune system and the blood count, promotes vitality and well-being because it can boost many metabolic processes.

Mixed pollen is diverse in its composition. It naturally contains, i.a. short-chain proteins, up to 20 amino acids, polyunsaturated fatty acids, minerals and trace elements such as iron, copper, manganese, zinc and silicic acid (silica), in addition to phosphorus, potassium, magnesium, sulphur and calcium. It also contains vitamin C, vitamin B1, 2, 6 and 12, as well as biotin, vitamins A, D, E, folic acid, niacin, pantothenic acid, antioxidant polyphenols such as flavonoids, natural sugars, enzymes, plant hormones and many other beneficial substances.
