

## NEKTON-PRO-ACTIVE

### Feed supplement to support locomotor system of cats and dogs

NEKTON-Pro-Active contains high-quality, natural ingredients, such as glucosamine, chondroitin and the MSM building block. NEKTON-Pro-Active helps to develop structure, position and strength of joint cartilage. A half-dose daily for active animals as a preventative and to stay healthy. Animals that are already ill (e.g. arthrosis) should receive one increased daily dose to improve their condition. All of the animal's joints are protected, supported and mobilized. The full effectiveness of NEKTON-Pro-Active will develop after approx. 14 days of uninterrupted use.
